DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by Wolniak. The patent to Wolniak shows a tackle box having a plurality of tubes or elongate shells 30 mounted in panels of floatation material 26 which act as a spacing structure. At least two of the elongate shells are capable of serving as legs that will stably support the apparatus on a surface when the at least two elongate shells are positioned in contact with the surface, the spacing structure is effective to prevent slippage of the at least two elongate shells with respect to the spacing structure due to frictional forces between them noting column 3, lines 52-58 of Wolniak.
